Mohammed Ameer

Freelance Trainer - Deep Learning, Machine Learning and IoT
Bengaluru

Summary

I am a skilled trainer for Deep Learning, Neural Networks and Internet of Things. I am an innovative training professional with experience in teaching and training, working on mostly on Robotics and IoT Projects for many leading educational training companies all over India. I am an expert in the field of AI,ML, IoT and deliver workshops and seminars on the same for the school and college going students. I have delivered more than 100 workshops all over India. I have trained more than 4000 students on various technical subjects.

I am also the founder of Diazonic Labs, Bengaluru an online edutech company which delivers workshops and webinars on various upcoming technologies ranging from Robotics to Machine Learning. I have pursued Bachelors of Engineering degree in Electronics and communication.

I am very active in guiding robotic enthusiasts for various robotics projects and competitions.

I am also a Robotic consultant for Times of India NIE program and Edu4sure company. My aim is to bring out the talent in youth by unveiling them the latest technology.
