Kuala Lumpur

## Summary

A self-motivated & result oriented professional with excellent Analytical, Communication, Leadership, Team management & Negotiation skills. He is always ready to face challenges and have the right attitude towards work and believe that it is more important to have the right attitude than required skills, as skills can be acquired if someone has an attitude.

He has experienced in the BFSI domain particularly General Insurance and also has a Licentiate certification from the Insurance Institute of India.

He is always enthusiastic to learn new skills, help others, and share his knowledge. He loves to read books related to Personal Finance, Self Development, and Autobiographies. He is also quite active on LinkedIn to learn & help others by writing posts and articles. He also love to train and teach people.

He has recently completed PG Diploma in Data Science from IIIT Bangalore through Upgrad platform and have acquired the following skills :

Language: R, SQL (Window Functions, Subqueries, Aggregation, and other functions), Python

OLAP operations and CRISP-DM Framework

Visualization: Tableau, R-ggplot2, Excel, Python - Matplotlib

Exploratory Data Analysis: R, Python, SQL & Excel (Pivot Chart, Vlookup, String Functions, Sorting, Filtering, etc)

Inferential & Descriptive Statistics, Hypothesis Testing

Machine Learning: Linear Regression, Logistic Regression, K-Means Clustering, Hierarchical Clustering, Support Vector Machine, Decision Trees, Random Forest, Naive Bayes, Time Series

Database : DB2, MySQL

Credit Scorecard, BSFI Acquisition, Engagement & Risk Analytics

## Digital Marketing

If you are looking for a passionate, enthusiastic and a right attitude person who is ready to apply his learning and at the same time learn new things to drive business, you can always write him at [suritalreja@gmail.com](mailto:suritalreja@gmail.com)

PS: Relocation should not be a constraint for a good opportunity and he is also available to work remotely.

---
