Avinash Goje

Data Scientist | Machine Learning
Mumbai

Summary

I am currently working in Myraa technologies, an artificial intelligence
company as Technical lead. I was involved in many projects in the
company and made hands dirty in various technologies. I have
researched on various machine learning algorithms and it helped me
a lot in trying out new things.

I was the mentor for one of the groups which were participated in
World Biggest Hackathon "Smart India Hackathon" dated on 30 - 31
March 2018.

Before joining this company, I had been through a rigorous training
on big data/ data analytics in a famous institute C-DAC.

Now, I am working on the project involving frontend technologies and
machine learning, AR. Through this company, I have participated
in a hackathon event where we showed a good performance. I love
meeting new people and learning new things.

Experience

Infinx
Data Scientist
October 2019 - Present (11 months)

Xooa
Software Engineer
July 2019 - October 2019 (4 months)
Pune Area, India
